Mobile Ticketing

A Mobile Ticket refers to a type of ticket for buses and trains, which are purchased only through MTTA's mobile app through an iOS or Android device. The security of your mobile phone or ticket is your responsibility. In the event that the ticket or your mobile phone is lost or stolen, MTTA will not provide a duplicate or replacement ticket. Your valid mobile ticket should be activated and displayed clearly on the mobile phone screen when asked by MTTA's fare enforcement officers (including but not limited to police officers, bus operator or LinkAssist operator, MTTA Security, Station Attendants) to view the mobile ticket. The mobile ticket must be retained during your entire journey. If you are unable to show a valid ticket, you may be subject to removal from property and or suspension of services. If the mobile ticket is not readable in any way, the ticket becomes invalid and a new one must be purchased at your expense. If you delete the mobile ticket app you will also delete your mobile tickets. If you reinstall the mobile ticket app using the same registered mobile number, your tickets will be downloaded to the device. You cannot copy, print, or transfer mobile tickets.

The price of a mobile ticket is the same as a ticket you purchase from the farebox, MTTA website, stations, and approved 3rd party vendors. When you purchase a mobile ticket on the mobile ticketing app you will be notified of the price of the ticket before you confirm your purchase.
